Appendix D: Community Partner Assessment: Community Partner Survey Instrument

Community Partner Assessment

Welcome

Note: Please submit only one completed survey per organization.

Thanks for taking the MiThrive Community Partner Assessment (CPA) Survey. This process helps to identify how we will improve our community's health together.

Your organization—and you—are vital to our community's local public health system, even if you do not work in public health or healthcare.

Public health is more than healthcare. Health outcomes are shaped by people's behaviors, ability to access healthcare, living and working conditions, and the institutions, policies, systems, cultural norms, social inequities, and environment that shape our community.

This survey is part of our Community Partner Assessment, which helps us identify the organizations involved in MiThrive, whom they serve, what they do, and their capacities and skills to support our local community health improvement process. The CPA helps us name strengths as a community and opportunities for greater impact.

After completing the Community Partner Assessment, a representative from each organization will be asked to participate in phase two of this assessment which includes a facilitated discussion. More information will be emailed to the individual filling out/ representing the organization in the Community Partner Assessment.

The responses to this survey and discussion will be summarized in our Community Health Assessment (CH[N]A). The results from the CPA and CHA will be used for planning and implementation for the next 3 years, before being revisited in the next cycle. The information gathered in this assessment will be used to develop a Community Health Improvement Plan (CHIP) to improve health in our community.

If you have any questions or concerns, email mithrive@northernmichiganchir.org.

Currently, we have not translated this survey, but resources can be available to help translate if needed. Additionally, we have staff available to accommodate with vision, hearing, or other disabilities that may impact the completion of this survey. Email mithrive@northernmichiganchir.org with any translation or accommodations requests.

Things to know:

This survey should take 30-40 minutes.

We recommend taking this survey on a computer or laptop rather than a phone or tablet due to question formatting.

Although a PDF copy is provided, all responses need to be entered into the digital format to be counted. If you need assistance with this, please contact mithrive@northernmichiganhiv.org.

Your responses will not be identifiable to you or your organization. They will be combined and summarized with all other responses in the CH[N]A report.

The Community Partner Assessment is intended to be a team effort. We suggest involving the rest of your organization to answer the assessment questions as needed.

Submit only one completed survey per organization.

Survey will close on **June 3rd 2024 at 8am**. Please submit responses on the virtual platform prior to this date.
