

Child and Adolescent Psychiatric Consult Referral

We are thrilled to announce the launch of our pediatric outpatient behavioral health psychiatric consultation program; we hope that this program will help fill a needed in our communities.

Here's how our consultation process works:

1. **Request Consultation:** Begin by reaching out to us to request a consultation. Please complete the consultation form using the following QR code.

Or by clicking on the link below:

2. **Initial Discussion with Psychiatrist:** Once your request is received, receive a call for an initial discussion with our child psychiatrist.
3. **Written Evaluation and Recommendations:** Based on the initial discussion and a thorough review of your patient's chart, our psychiatrist will provide a detailed written evaluation and recommendations tailored to your patient's situation.
4. **Telemedicine Evaluation for Complex Cases:** If clinically indicated our child psychiatrist might recommend a telemedicine evaluation with the patient. This allows us to offer a more in-depth assessment and develop a comprehensive treatment plan.

We are pleased to offer this service to all providers who see pediatric patients in the Munson Healthcare coverage area. Please note that our child psychiatrist will provide recommendations but will not assume care or follow the patient.
